QA orientation handbook

SYNTHETIC QA ONLY - NOT A REAL PERSON, VACANCY OR EMPLOYMENT RECORD.

WELCOME TO THE QA WORKPLACE

In this fictional workplace, the staff member keeps a task list with a clear next action and owner. A task is complete only after the expected handoff is confirmed.

PRIVACY AND ROLE BOUNDARIES

Use only your own app identity. Review the recipient and your authority before sharing a document or message. Nonclinical staff route clinical questions to an authorized clinician.

ASKING FOR HELP

When a record is missing or a deadline conflicts, ask People Operations through the intended message path. Do not change another person’s work or mark prerequisites complete to clear a checklist.

ACCOUNT READINESS

Setting a password is a setup step. Employee access starts after the required onboarding and staff approval. Keep passwords and personal portal links in the QA vault.

This is a short QA resource, not ITSCO’s actual employee handbook or a legal policy. Reading this file alone does not pass required company training.
